PRIMARY EXAMINER

RESPONSE TO ARGUMENTS, EXAMINER'S AMENDMENT, AND REASONS FOR ALLOWANCE

Response to Arguments

1. Applicants' arguments see pages 4-5 of the remarks, filed September 30, 2005, with respect to the primary reference to Yajima have been fully considered and are persuasive. The 35 USC 103 rejection of claims 1-2, 4-5, 7-11, 13-14, 16-20, and 23-27 has been withdrawn.
2. With respect to the reference to Peterson, applicants' argument is moot in light of applicants' amendment made on December 20, 2005 in a telephone interview (See Examiner's amendment below for details).

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael J. Medley (Reg. No. 57,058) on December 19, 2005.

The application has been amended as follows:

Cancel claims 5, 14, 24, and 26.

Amend claim 1 as follows:

At line 3, after the limitation "segments" insert "that overlap one another" - -

At line 6, delete "and" - -

At line 9, after the limitation "image" insert ";" storing image file information, wherein the image file information corresponds to the plurality of image segments for a stored image;

and updating the image file information that has been affected by the act of performing image processing on any one of the plurality of image segments corresponding to the stored image" - -

Amend claim 10 as follows:

At line 4, after the limitation segments, insert " that overlap one another" - -

At line 6, delete "and" - -

At line 10, after the limitation "image" insert ";" and storing image file information on the storage medium, wherein the image file information corresponds to the plurality of image segments for an image stored on the storage medium; and updating the image file information that has been affected by image processing performed on any one of the plurality of image segments corresponding to the stored image" - -

Amend claim 19 as follows:

At line 3, after the limitation "medium" insert "that stores image file information that corresponds to a plurality of overlapping image segments for a stored image" - -

At line 4, delete "a" - -

At line 8, after the limitation "image" insert " , and updates the image file information that has been affected by the image processing on any one of the plurality of image segments corresponding to the stored image"- -

Amend claim 25 as follows:

At line 1, delete "24" and replace it with "1" - -

Amend claim 27 as follows:

At line 1, delete "26" and replace it with "10" - -

Reasons for Allowance

4. Claims 1-2, 4, 7-11, 13, 16-20, 23, 25 and 27 are allowed.
5. The following is an examiner's statement of reasons for allowance: the closest prior art to Peterson does not teach or fairly suggest, among other things, dividing the captured image into a plurality of image segments that overlap one another, and upon completion of storing respective image segments, stitching together the image segments within the persistent storage medium to reconstruct the captured digital image; storing image file information, wherein the image file information corresponds to the plurality of image segments for a stored image; and updating the image file information that has been affected by the act of performing image processing on any one of the plurality of image segments corresponding to the stored image. It is for these reasons and combination with all of the other elements of the claims that claims 1-2, 4, 7-11, 13, 16-20, 23, 25 and 27 are allowable over the closest prior art of Peterson.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
